Training Objectives

- This training guide consists of a series of exercises and diagrams that will help you to understand the procedures for Phase 2 of the 1996 Reverse Record Check (RRC) Study. You will find that each Section of this guide corresponds to the same Section in the Phase 2 manual, including diagram numbers. Separate exercises will be distributed by your supervisor to reinforce critical aspects of the Phase 2 (Edits and Reworks) training.
- The purpose of the exercises is not to test your memory but rather to give you a chance to apply the procedures. Always refer to your procedures manual while doing the training session and make notes at the end of each Section in the manual for your own reference.
- Only by performing the actual duties of the operation will you become completely familiar with all aspects of the Phase 2 Reverse Record Check activities. By the end of this training program, you should have a thorough knowledge of the procedures.
- During your training, ask for clarification on any of the procedures that are not completely clear to you. It is recommended that you pay close attention to the forms package distributed to you by your supervisor as these will be your tools in the weeks to come.
- Rest assured that after the training and during the RRC production, your supervisor will be available for discussing and answering any questions pertaining to your duties.

Training Materials Checklist

Please verify that you have the required training materials listed below:

- pen
- pencil
- eraser
- ruler
- paper pad
- Phase 2 (Edits & Reworks) H-300B procedures manual
- Forms package including:
 - RRC-317
 - RRC-319
 - H-332
 - Form 1 – Visitation Record (VR)
 - H-332P
 - H-332M
 - H-332R
 - 2A/2B/2C/2D/questionnaires/Form 4

I. Introduction

The introduction Section in your procedures manual (H-300B) provides an overview of the Reverse Record Check Study, including objectives and how the RRC is conducted. A description of the tracing activity which is being carried out by the regional office interviewers and the searching activity which will be carried out by Head Office Processing (HOP) staff in DA III (Special Processing) is also provided, including your responsibilities in the Edits and Reworks Phase (Edits and Reworks).

Read pages 1 to 3 of your Phase 2 (Edits and Reworks) procedures manual. Once you have read it, return to this manual and complete Exercise 1.

Exercise 1 Introduction

Answer the following questions in the space provided.

1. What is the purpose of the Edits and Reworks Phase 2 clerical operations?

2. List the four (4) operations involved in the Edits and Reworks Phase 2 (Edits and Reworks).

Complete the following statements.

3. The _____ operation involves manual research to confirm or improve the SP's address and/or telephone number, using source documents in the _____ file folder and general reference material.

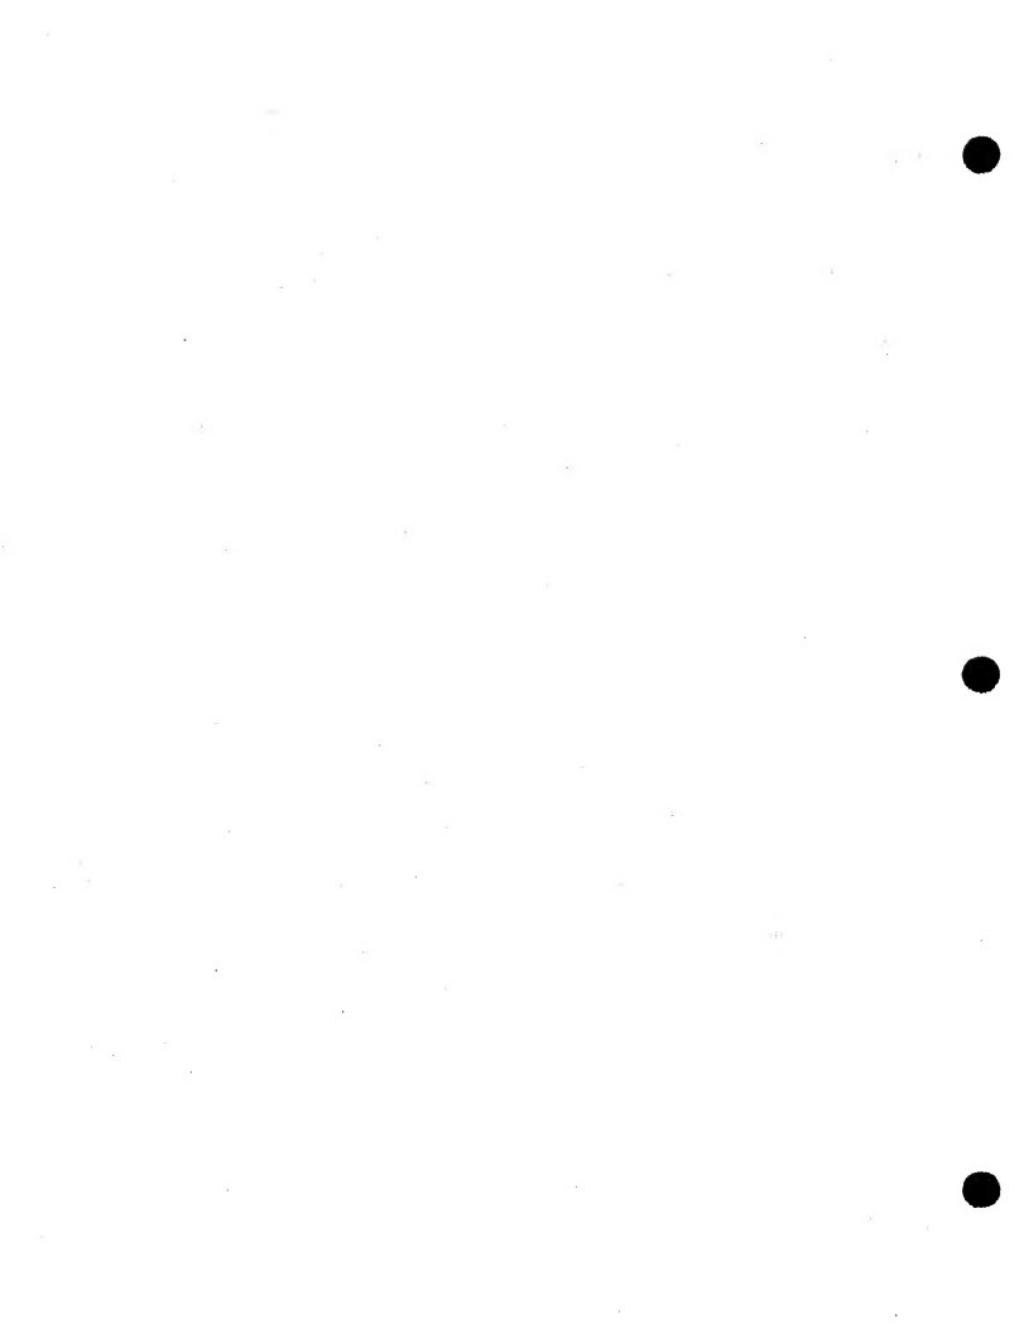

4. The Visitation Record (VR) Search is undertaken to

_____ . Results are coded on the Form H-332R which is the only Phase 2 form processed through this operation.

5. The _____ involves locating the census questionnaire(s) corresponding to households identified by either the automated systems or VR Search staff, comparing the data on the _____ to that on the _____ and _____ on the applicable Phase 2 form.

When you have completed the exercise, your supervisor will review this Section with the group.

Notes:

II. Description of Documents**Exercise 2 Form H-332P (Processing Edit Form)**

The Form H-332P is a form produced by the Phase 2 SSMD automated systems for verifying and correcting coding errors made during Phase I processing. It goes directly to the Verification operation. Read pages 6-10 in your Phase 2 (Edits and Reworks) Procedures Manual and refer to the Form H-332P on page 13.

Top Margin

Complete the following statement.

1. The _____ box is to be used by Data Quality staff only.

Section 1 - Edit Type

An edit type number and error message will be preprinted in this section.

Answer the following in the space provided.

2. Why is the error message preprinted?

Section 2 - Address

Answer the following in the space provided.

3. What is the 2-digit address identification number on the Form H-332P on page 13?

Section 3 - Questionnaire Verification

The first line contains the preprinted results from Phase 1 processing.

Answer the following in the space provided.

4. What specific information is printed on the second line?

Section 4 - Selected Person

SP's data are preprinted.

Answer the following in the space provided.

5. Was the SP's name updated during the tracing? Where is it printed?

Section 5 - Household Members

Household member's data are preprinted.

Answer the following in the space provided.

6. What does Column 3 contain?

Section 6 - Other Adult

Other adult's data, if any, are preprinted.

Answer the following in the space provided.

7. Are there any other adult's data on this Form H-332P? Where should it be printed?

Section 7 - Comments

This section is used by Verification staff.

Answer the following in the space provided.

8. What is documented in Section 7 of the Form H-332P?

When you have completed all the questions in the exercise, your supervisor will review this section with the group.

Exercise 3 Form H-332M (Match Form)

The Form H-332M is a form produced by the Phase 2 SSMD automated systems for searching for an SP or his/her household member(s) in enumeration areas that were not produced in Phase 1. Read pages 11-15 in your Phase 2 (Edits and Reworks) procedures manual and refer to Form H-332M on page 17.

Top Margin

Answer the following in the space provided.

1. When is No Match box used on the Form H-332M?

Section 1 - Questionnaire Verification

All automated matches of persons to the census database in areas across Canada that were not searched during Phase 1 are printed for the Verification operation. Matches are ordered by most likely match first. A maximum of 10 matches may be printed on each form.

Answer the following in the space provided.

2. When is a position number not printed?

Section 2 - Selected Person

SP's data are preprinted.

Answer the following in the space provided.

3. What is the updated name of the SP on the Form H-332M on page 17?

Section 4 - Address(es)

Some addresses for an SP will be printed in this section.

Complete the following statement

4. Are there any addresses printed in this section? If so, how many?

When you have completed the exercise, your supervisor will review the section with the group.

Exercise 4 Form H-332R (Rework Form)

A Form H-332R is printed if an address is to be reworked. Address data are reprocessed if either the capture Phase 1 data for an address is unresolved or there was no Phase 1 data for an address. Addresses having no Phase 1 data are those where the search areas were not determined by the automated geosearch system and therefore not processed in Phase 1.

A referral operation is undertaken to **confirm or update the SP's address** printed in Section 1 on the Form H-332R using information from the SP's file as well as general and geographic reference materials (if applicable). Read pages 16-22 in your **Phase 2 (Edits and Reworks)** manual. Refer to Forms H-332R from pages 22-31 for personal reference before completing the following questions.

Answer the following in the space provided.

1. Identification areas are printed in the top margin. What is printed above Section 1 to allow you to follow correct procedures?

2. What must be done for an **Out of Scope Rework**?

3. What must be validated on a **Duplicate Rework**?

4. What are the steps involved in the processing of a **Complete** type of Rework?

5. What must be confirmed and recoded in an **Express Rework**?

6. What is a Form 4 Rework?

Section 1 - Address

This section contains address data.

Answer the following in the space provided.

7. Column 1 contains ___ boxes, one of which will be checked off during the
_____ operation.

Section 2 - Address Update

Answer the following in the space provided.

8. What is done in this section by the referral staff?

Section 3 - VR Search and Questionnaire Verification

Answer the following in the space provided.

9. What columns do the Referral staff code? The VR staff? The Verification staff?

10. What is coded in Columns 2 to 4?

Section 3 – Continued

11. When is Column 1 checked off?

Section 4 – Data Quality Use Only

Answer the following question in the space provided.

- 12 When is this section used?

Checklist (Below Section 7)

13. What is the purpose of the checklist?

When you have completed all the questions in the exercise, your supervisor will review this section with the group.

III. Control**Exercise 5 Control**

Read page 25 in your Phase 2 (Edits and Reworks) manual and answer the following questions in the space provided.

A. Receipt of forms

The Phase 2 forms will be received from SSMD in bundles by form type. Forms H-332R will be ordered by "type" (i.e. 1, 2, 3, 4, or 5) as shown in the top margin of each form.

Answer the following questions in the space provided.

1. Where should H-332R (Types 1, 2, and 3) be sent?

B. Batching

Complete the following statement.

2. Batching is the preparation of forms for data capture. You prepare ___ forms per batch for H-332M, M-332P, and H-332R.

C. Filing

Complete the following statement.

3. Filing of forms will occur throughout Phase 2. When do you file Form type H-332M?

When you have completed the exercise, your supervisor will review this Section with the group.

Notes:

IV. Referral

The Referral operation manually processes difficult cases that were not resolved during Phase 1. Only Forms H-332R (Types 1, 2 and 3) are processed in this operation. The referral procedures involve the use of numerous reference materials.

Read pages 27-30 in your Phase 2 (Edits and Reworks) manual and answer the following questions by consulting the diagram which is being referred to.

Exercise 6 The Reference Materials (General and Geographic)

Complete the following statements.

1. To find an SP's address using his/her telephone number as a reference, you would use the _____ directories.
2. The Postal Code/EA Conversion List is used to convert a _____ into a corresponding PROV/FED/EA number.
3. The _____ is a list showing original PROV/FED/EA numbers with corresponding newly assigned PROV/FED/EAs.
4. For larger cities (census metropolitan areas), an index is available which is an alphabetical listing of specific municipalities by street name and which includes street type, number range, and corresponding PROV/FED/EA numbers. This index is called the _____.
5. If you wished to find all the PROV/FED/EAs for a particular town, village, etc., you would use the _____.

6. By consulting Appendix 1, Street Index List — Ontario, determine the PROV/FED/EA number for the following addresses.

(a) 2 Chancery Ln., Scarborough, Ont.

(b) 14 Chamberlain Ct, Ajax, Ont.

(c) 37 Chalmers Rd., Richmond Hill, Ont.

(d) 191 Chambers Ave., York, Ont.

(e) 18 Chambers Dr., Ajax, Ont.

7. For each postal code listed below, determine the PROV/FED/EA number(s) using Diagram 1 (Postal Code Conversion List).

(a) BOW 2K0 _____

(b) BOW 1XO _____

(c) BOW 1Y0 _____

(d) BOV 1H0 _____

Exercise 7 Form H-332R identified as Type 1 – OOS (Out of Scope)

Confirm that the address printed in Section 1 on the Form H-332R is out of scope. An address is considered to be out of scope if it is not in Canada (i.e. foreign address) or if it does not correspond to a geographical location.

Refer to pages 31-33 of your manual and answer the following question in the spaces provided below.

1. What procedures would you take with the following address "beside Drummond City Centre"?

Exercise 8 Form H-332R identified as Type 2 – DUP (Duplicate)

An address is considered to be a duplicate if all the components are the same. Address components include: a street name, civic number and apartment number if applicable or a description of a location; a city, town, village or Indian reserve; a province and a postal code. An address may also include the name of a collective dwelling. Spelling errors, abbreviations and/or different positioning of the components are acceptable. However, if the postal code is different, the address is not the same.

Complete the following statement.

1. The auto result code (A, B, C, or D) is located in the top margin of the Form H-332. This Form H-332 is called the _____ Form.

Exercise 9 Validating address data on Form H-332R

Read pages 34-37 and answer the following in the space provided.

2. Where is the "Address Source" printed?

3. How do you confirm that either the address entered in Section 2 on the Form H-332R (if updated) or the address printed in Section 1 on the Form H-332R (if confirmed as same) is correct?

4. Indicate whether the following addresses should or should not be updated by circling the update if any.

When you have completed the exercise, your supervisor will review this Section with the group.

Exercise 11 Determining PROV/FED/EA numbers for an exact address

Refer to the procedures on page 39 in your Phase 2 (Edits and Reworks) manual on determining PROV/FED/EA numbers for an exact address.

Answer the following questions in the space provided.

1. How do you locate the place name of the address identified on the Form H-332R?
-

Exercise 12 Determining PROV/FED/EA number(s) for an inexact address

You will now determine PROV/FED/EA numbers for an inexact address. Refer to the procedures on page 40 in your Phase 2 (Edits and Reworks) manual.

Answer the following questions in the space provided.

1. If 10 or less PROV/FED/EA numbers are identified, where do you place the Form H-332R?
-

When you have completed the exercise, your supervisor will review this Section with the group.

Notes:

V. VR Search

The VR Search involves a manual search in Visitation Records (VRs) to locate the address or telephone number entered in Section 2 on the Form H-332R (if updated) or the address printed in Section 1 on the Form H-332R or the name of the SP or the name of a household member or the name of the other adult printed in Sections 5, 6 and 7, respectively. Read pages 43 to 49 in your Phase 2 (Edits and Reworks) procedures manual.

Exercise 13 Searching for an Exact Address with No Collective Dwelling Name

Refer to the procedures on pages 43 to 45 in your Phase 2 (Edits and Reworks) manual.

Answer the following in the space provided.

1. If the exact address is listed in Column 3, Section 1 of the VR and there is no entry in either Form 4 columns (18-20) or Unoccupied May 14, column (21), what do you enter in Section 3 on the Form H-332R?

2. If there is no indication that the exact address should have been listed in the VR, what procedures do you follow?

Exercise 14 Searching for an Inexact Address with No Collective Dwelling Name

Refer to the procedures on pages 46 to 47 in your Phase 2 (Edits and Reworks) manual.

Answer the following in the space provided.

1. What do you enter on the Form H-332R if the telephone number is listed in Column (12), Section 1 of the VR and the Name of Person 1 in Column (7) of the VR is different from any names printed in Sections 5, 6, or 7 on the Form H-332R?

2. If the SP, a household member or the other adult is not listed in Column (7) of the VR, what procedures do you follow?

Exercise 15 Searching for an Address with a Collective Dwelling Name

Refer to the procedures on pages 48 to 49 in your Phase 2 (Edits and Reworks) manual.

Answer the following in the space provided.

1. If you determine that the address recorded in Section 2 on the Form H-332R **should have been listed** in either Section II or Section 1 of the VR, what procedures do you follow?

2. If you find **no indication** that the address should have been listed in the VR, what procedures do you follow?

When you have completed all the questions in this chapter, your supervisor will review the section with the group.

Notes:

VI. Verification**Exercise 16 Processing Edit Form (H-332P)**

Phase 1 H-332 data was edited for invalid data. A Form H-332P is printed for verification if the data are invalid for an address. Verification staff locate the census questionnaire that corresponds to entries in Section 3 and either verify or correct the coded Phase 1 data. Read the procedures on pages 51 to 54 in your Phase 2 (Edits and Reworks) manual.

Fill in the missing information.

1. The chart below contains some edit type and error messages printed in Section 1 of the Form H-332P.

Type	Edit Message	Description
		The SP was not found on the census questionnaire, but there was a person on the census database which matched the SP's characteristics.
		The number of persons coded does not agree with the number of persons on the census database.
	No SP/HH/Add coded	
	QNO and/or POS invalid	

Answer the following in the space provided.

2. If the edit type is 3, and the SP was matched, what procedures should you follow?

3. Which columns in Section 3 on the Form H-332P may have preprinted data to direct you to the SP?

4. If the edit type is 4 and the SP was not matched, what procedures should you follow? Where do you place the Form H-332P?

Practical Exercise

5. Complete the practical exercises on the Processing Edit Form (H-332P) using the four H-332Ps provided on the following pages along with their corresponding census questionnaires.

When you have completed the exercise, your supervisor will review this section with the group.

*Un message sur le recensement*

Depuis plus de 300 ans, le recensement trace le portrait de notre population et de l'endroit où nous vivons. Les renseignements recueillis le 14 mai 1996 nous aideront tous à mieux nous préparer pour l'avenir. Le recensement fournit l'information dont ont besoin les groupes communautaires, les entreprises et les divers échelons de gouvernement pour développer des projets en matière d'éducation et de formation, de nouveaux produits et services, de logements pour les personnes âgées, de services de santé et de plusieurs autres programmes qui sont importants pour nous tous.

En vertu de la loi, Statistique Canada doit mener un recensement à tous les cinq ans, et chaque ménage doit remplir un questionnaire du recensement. Et, en vertu de la loi, personne, à l'exception du personnel de Statistique Canada, ne peut voir les renseignements que vous lui fournissez.

Veuillez remplir votre questionnaire du recensement et le retourner par la poste le 14 mai 1996.

Exercise 17 Match Form (H-332M)

One or more PROV/FED/EA numbers will be printed in Columns 2 to 5 of Section 1 on the Form H-332M in order of most probable match. When either the SP or a household member is found or when all matches have been verified, verification is finished. Read pages 54 to 55 in your Phase 2 (Edits and Reworks) procedures manual.

Answer the following in the space provided.

1. How do you use the name match definitions in the appendix with the Form H-332M?

2. If the SP or a household member is matched, how do you code the Form H-332M?

3. If the address printed in Section 4 of the Form H-332M is different than that of the address on the census questionnaire, what procedures do you follow?

4. If no persons were matched on the corresponding census questionnaire, what do you enter on the Form H-332M?

Practical Exercises

5. Complete the practical exercises on the Match Form (H-332M) using the two H-332Ms provided on the following pages along with their corresponding census questionnaires.

When you have completed the exercise, your supervisor will review this section with the group.

Count Yourself In! May 14, 1996

A message about the census

For over 300 years, the census has painted a picture of our people and the places in which we live. The information collected on May 14, 1996, will help all of us prepare for the future. The census provides information needed by community groups, businesses, and governments to develop plans for education and training, new products and services, housing for seniors, health care services, and many other programs that are important to all of us.

By law, Statistics Canada must take a census every five years, and every household must fill in a census form. And by law, no one, except employees of Statistics Canada, is allowed to see the personal information you provide.

Please fill in your census form and mail it back on May 14, 1996.

Thank you for your co-operation.

Ivan P. Fellegi
Chief Statistician of Canada

Exercise 18 Rework Form (H-332R)

One or more matches have been identified manually in Section 3 by VR Search staff. Matches where the VR result has been coded as 4, 5, or 6 are to be verified with the lowest VR result code. Read pages 56 to 57 in your Phase 2 (Edits and Reworks) procedures manual.

Answer the following in the space provided.

1. If the SP or a household member or the adult is matched, what results do you code on the Form H-332R?

Attempt to explain the procedures in your own words.

2. If no persons were matched on the corresponding census questionnaire and VR RES is coded either as "4" or "5", what do you code in Section 3 of the Form H-332R?

3. If no persons were matched on the corresponding census questionnaire and the VR RES is coded as "6", outline the procedures to follow.

When you have completed the exercise, your supervisor will review this section with the group.

Exercise 19 Name match definitions

Your supervisor will now distribute practical exercises for you to complete using the Name Match Definitions in the Appendix. Refer to the procedures on page 54 – 59 in your Phase 2 (Edits and Reworks) manual.

Complete the following statements.

1. If the SP's family name agrees exactly and the _____ or _____ agree or are consistent, the SP's name is a match.
2. According to the Name Match Appendix, are the following names considered to be a match? Why? or Why Not?

Albert S. Bernard

Serge Bernard

Frances Cohen

Fran Cohen

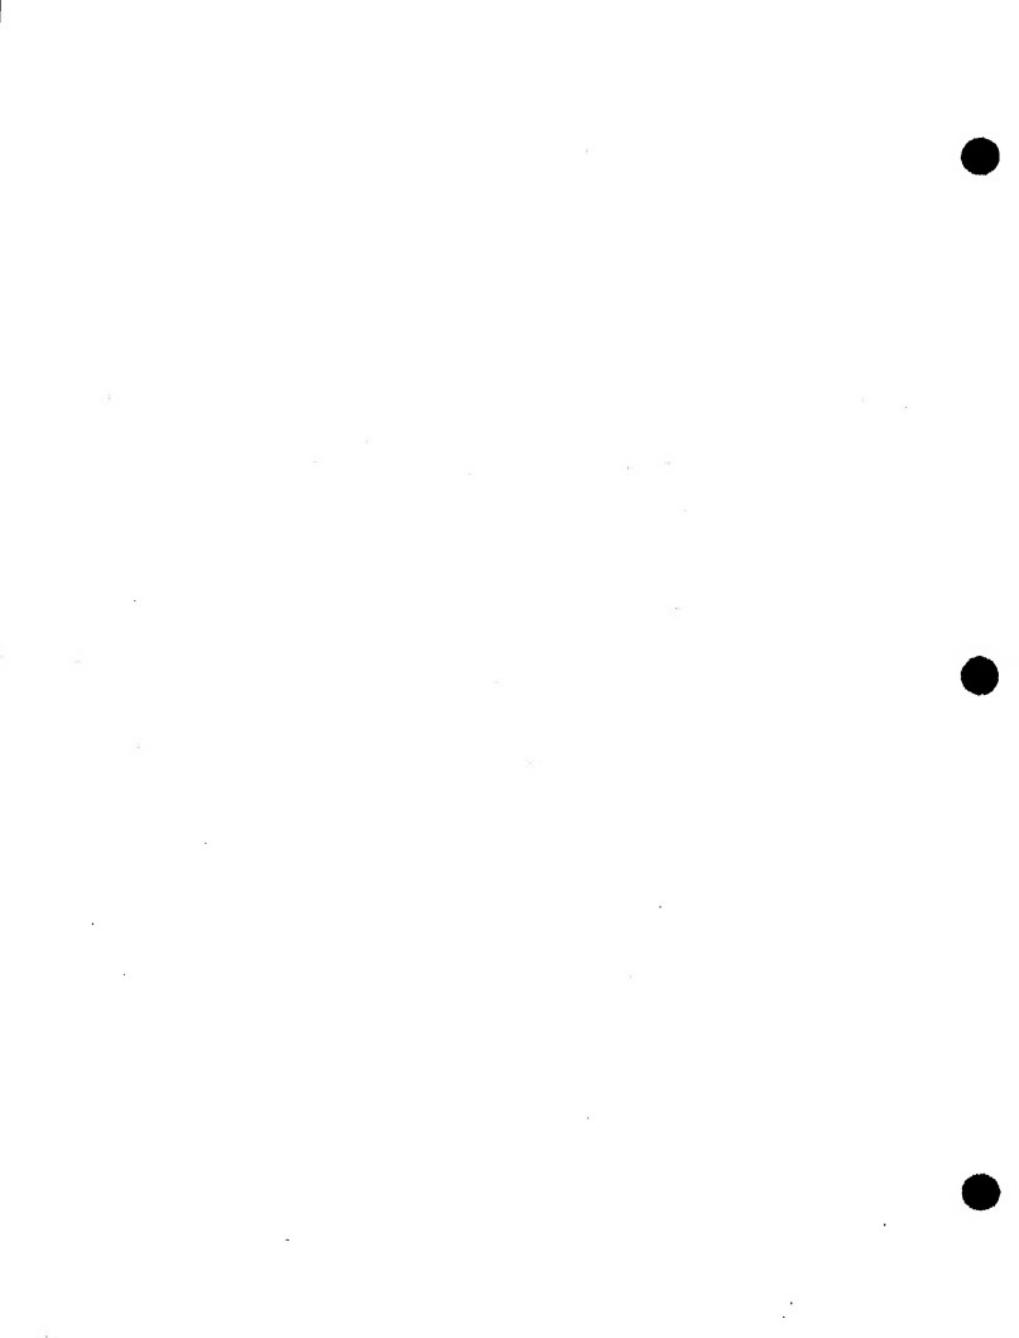

Carol T. Jones

Carol T. Benoit

Mark A. Carpenter

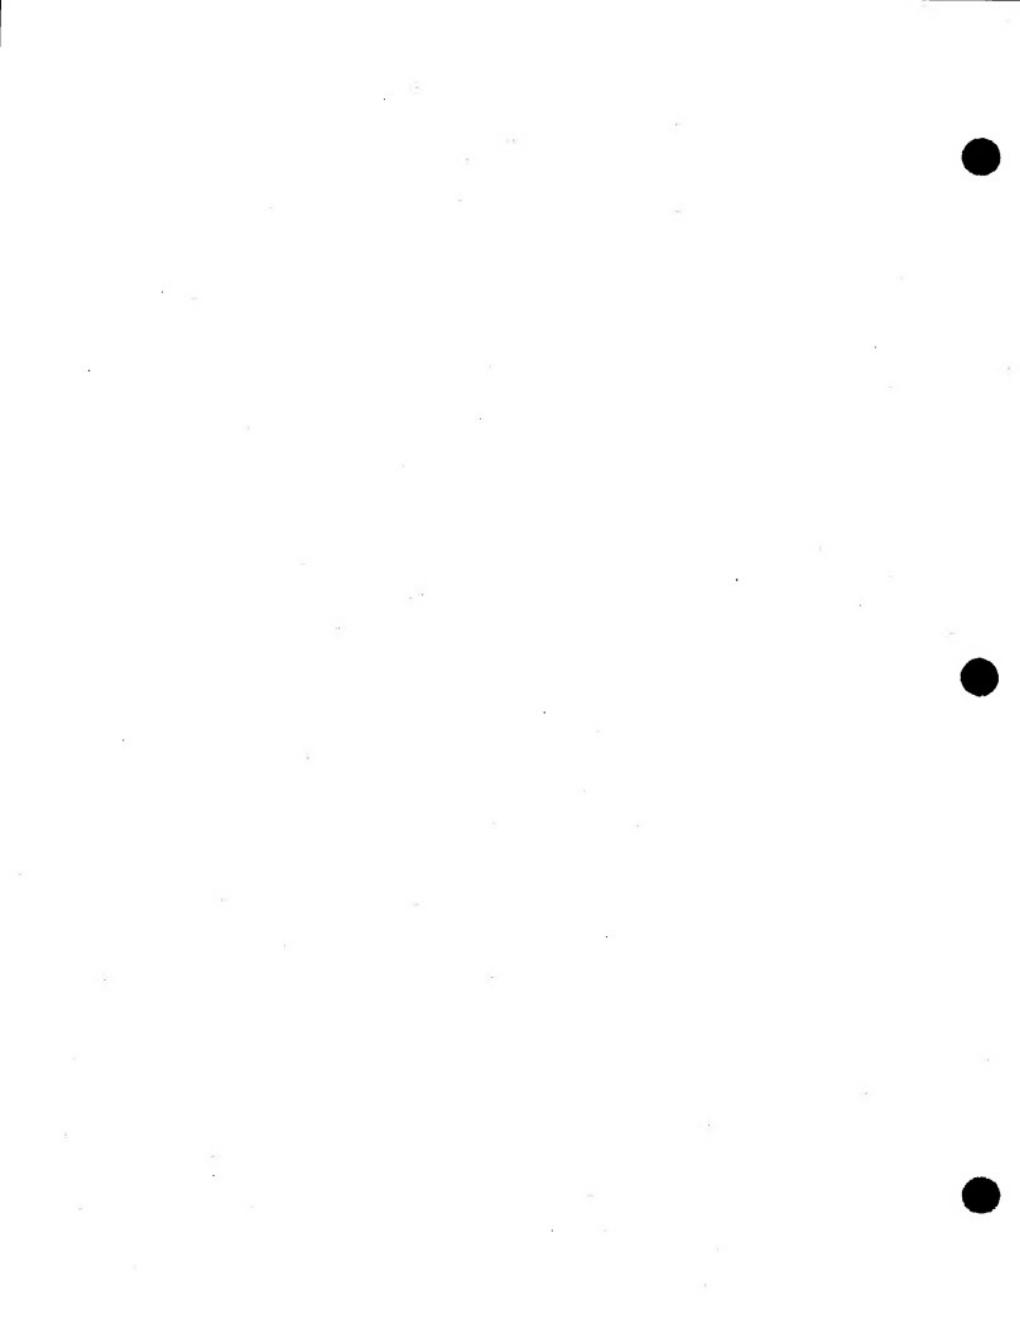

Marc Alain Carpentier

When you have completed the exercise, your supervisor will review this Section with the group.
